## PROFILE

*Automation Engineer with a background in software development (PLC, HMI, robotics) and a current focus on project management.*
*Main point of contact for clients, suppliers and EPCs, actively involved from project coordination through on-site commissioning.*

## SKILLS

### Project Engineering

- Project Management
- Client, EPC and Supplier Interface
- FAT and Commissioning
- Schematic Review and Approval

### Automation

- TIA Portal and Step 7
- FANUC Ladder III and FANUC Picture
- Network Architecture
- FANUC Anthropomorphic Robots
- Drives

## LANGUAGES

| | |
|---|---|
| ITALIAN | Native |
| ENGLISH | B2 |

## COURSES

- Supervisor Safety Training Certificate
- High-Risk Safety Certificate
- Confined Space Work Certificate
- Fanuc Robot Basic (RO03)
- Fanuc Robot Advanced (RO04)

## PROFESSIONAL EXPERIENCE

### BMS Automation Project Engineer

Milani S.p.A., Osnago (LC) — 04/2026 – Present

- **Project management** acting as **technical interface** with **clients, EPC, General Contractor**, suppliers, partners and the internal team
- Design of **network architecture** and definition of control components for **BMS** systems in **Data Center** and large buildings
- Management of **commissioning** activities at the end customer's site
- Management of Factory Acceptance Tests (**FAT**) as supplier

### Automation Project Engineer

Tenova S.p.A., Dalmine (BG) — 06/2024 – 03/2026

- Design of **network architecture** and selection of PLC/HMI components for **steel melting plants** and auxiliary systems
- **Project management** acting as **technical interface** with clients, suppliers and project partners
- Planning and management of Factory Acceptance Tests (**FAT**) for equipment at suppliers' premises
- **Supervision** of on-site activities during **commissioning**
- Review and approval of **electrical schematics and software** provided by external parties

### Automation Engineer, PLC & HMI Developer

Regg Inspection S.r.l, Gorgonzola (MI) — 03/2021 – 05/2024

- Siemens S7 **PLC and drive programming** (Festo, Selema, Schneider, Hiwin), **HMI interface** development for **inspection machines** and support systems (loading/unloading)
- **Design and development of automation** (PLC and Fanuc CNC, HMI, drives, interface with external systems) for **roll-forming machines**
- Software and hardware **commissioning**/maintenance interventions
- Integration of **anthropomorphic robots**

## EDUCATION

### Master's Degree in Automation and Control Engineering (taught in English)

(96/110)

Politecnico di Milano, Milano — 09/2018 – 04/2021

### Bachelor's Degree in Automation Engineering

(103/110)

Politecnico di Milano, Milano — 10/2015 – 09/2018

### Diploma in Electrical Engineering

(100/100)

Istituto Tecnico P. Hensemberger, Monza — 09/2010 – 07/2015
